Species Name	L/D	SAC FOR	Notes

PLEASE RETURN COMPLETED FORMS TO:

Kent Wildlife Trust, Tyland Barn, Sandling, Maidstone, Kent ME14 3BD.
Tel: 01622 662012 www.kentwildlifetrust.org.uk Charity No: 239992

By submitting this form, you agree that your contact details and the data can be included in the national marine database. Your details will also be added to Kent Wildlife Trust's Shoresearch mailing list and not passed on. Please tick if you do not wish to be added to the mailing list. ☐

Intertidal Recording Form
Single Habitat

Please use this form to record the species found in a single habitat at a single location (eg chalk platform, or sandy shore, or driftline on shingle). Use separate copies of the form for different habitats.

Survey date:	
Site Name:	

Name:	
Address:	
Telephone(s):	
e-mail:	

Position of survey: (Lat/long or OS Grid Ref)					
Position was taken from:		GPS Map			*(please circle)*
Habitat features present within your survey area: *Please circle all present, and underline the main one.*		Bedrock - chalk platform	Bedrock - other: ……..	Boulders (>256mm)	Cobbles (64-256mm)
Pebbles (16-64mm)	Sand	Mud	Man-made:	Other:	Other:

Please note main habitat, main type of live cover, and any particular features (eg: Chalk platform with gullies, and thick cover of brown seaweeds with numerous anemones.)

Site Name:	Date:	p2

SPECIES
For each species found, mark whether **Live (L) or Dead/Drift (D)** under L/D

Then estimate its abundance in the **SACFOR** column:
S = Super abundant, **A** = Abundant, **C** = Common, **F** = Frequent, **O** = Occasional,
R = Rare/Uncommon. If you are unsure, simply note **P** = Present

(This version of the form leaves the species list blank for you to fill in. Please ask if you would like copies of the version with the most common species already listed.)
