

ACTION SPEAKS LOUDER... THAN BIRDS!

Information about how you can help birdlife on your beach:

- ✓ Please keep your dogs on a lead near resting birds
- ✓ Avoid going near, chasing or putting birds to flight
- ✓ Observe signs about the roosts

Please avoid resting birds - especially at 'high tide'
and 'at night'

We need to share the
beach with these birds
- as it is their home too!

Your beach is an important wintering bird roost that is part of
the North East Kent European marine sites.
